- Urdu (Fluent)
- English (Intermediate)

• Profile

I'm a passionate and self-driven web developer with a growing focus on backend development using PHP and MySQL. I have a good understanding of how to create dynamic websites and connect them with databases. Along with core PHP, I also have basic knowledge of Laravel. On the frontend, I'm skilled in HTML, CSS, JavaScript, and responsive frameworks like Bootstrap and Tailwind CSS, which helps me build clean and user-friendly interfaces. I enjoy learning new technologies and improving my full-stack development skills.

• Work Experience

PHP Developer (Projects-Based Experience)

- Developed multiple responsive websites using HTML, CSS, Bootstrap, and JavaScript.
- Created dynamic web applications using core PHP and MySQL for database integration.
- Gained hands-on experience with basic Laravel features and MVC structure.
- Used Git and GitHub for version control and simulated collaborative workflows.
- Focused on writing clean, reusable, and modular code.
